

RYLSTONE REGION COAL FREE COMMUNITY MEETING

**RYLSTONE COMMUNITY HALL
SAT 26 JUNE 2021, 1.30PM - 3.30PM**

Make your voice heard!

Dear Rylstone Region community,

As you know, the Department of Planning, Industry and Environment has begun the Preliminary Regional Issues Assessment (PRIA) process to identify potential social, environmental and economic opportunities and constraints associated with coal exploration in our region. They have organised public meetings on June 29 and 30 to hear our concerns, the issues we want to raise and to start community consultation.

To ensure we make our opposition heard at these meetings, we are having an RRCFC meeting on the Saturday 26th June, a few days before the government organised meetings. This is a chance for us to get together and discuss and clarify all the things we want to make sure they hear at these initial meetings. We'll also need to do written submissions in the coming 6 weeks, but if we bring a **united, organised and resourced response** to these in-person meetings, we will already be telling the government, very clearly, **that coal exploration is not wanted in this region.**

- **Register for the RRCFC Meeting:** <https://tinyurl.com/3rwxfaq>
- Go to www.planning.nsw.gov.au/pria-consult to complete the online form or attend one of four information and workshop sessions to be held in Rylstone and Mudgee on 29 and 30 June

We also have a good supply of "Rylstone Region Coal Free Community" signs and "Lock the Gate" signs. Please get in touch with heike@rylstonecfc.com or one of the team at info@rylstonecfc.com.au if you want some signs for your gates, and please let your neighbours know as well.
