(2) In this constitution:

- (b) a reference to the exercise of a function includes, if the function is a duty, a reference to the performance of the duty.

(3) The provisions of the Interpretation Act 1987 apply to and in respect of this constitution in the same manner as those provisions would so apply if this constitution were an instrument made under the Act.

(4) In this constitution:

Rylstone/Kandos Region means an area within 20 kilometres of the boundaries of the Hawkins, Rumker and Ganguddy-Kelgoola new coal release area as advised by the NSW government and in place at the time of incorporation and as varied from time to time

2 Aims and Objectives

- (1) To prevent further exploration or development activity related to the mining of new coal in the Hawkins, Rumker and Ganguddy-Kelgoola potential new coal release areas in the belief that taking into account the negative impacts, any thorough and balanced assessment would show it to be undesirable.
- (2) To protect the Rylstone/Kandos Region and to identify, communicate and engage with affected persons and groups about the adverse impacts of coal exploration and mining activities. These activities could adversely impact (for example and not exclusively):
 - (a) The environment and ecology of the area, including its diverse flora and fauna (some rare and critically endangered)
 - (b) The local community, its social structure and functioning, its affinity with the land and the amenity of the area and its sustainability/resilience
 - (c) The significant Aboriginal heritage in the area
 - (d) The **region's** vibrant and growing tourism sector
 - (e) The physical and mental health and wellbeing of local and neighbouring inhabitants
 - (f) The agricultural production and other non-mining business potential of the area
 - (g) The already limited and vulnerable natural water resources of the area, including their importance/relevance to the local and wider catchments
 - (h) The financial security of those potentially affected, including current and future earnings potential, land value and operating and/or capital costs of those already invested in the area and those who would be attracted to and grow the area but for exploration and mining activities
 - (i) Global climate
- (3) To ensure data, reports and advice to decision makers are unbiased and independently and openly scrutinised, be that scientific, economic, social, environmental or related to first nations peoples.
- (4) To ensure that the processes surrounding the granting of exploration licences, the undertaking of exploration activity, the granting of mining/extraction licences and ongoing monitoring and other activities are fully transparent, fair and reasonable and that those processes are communicated openly with members and the local and wider community in a timely fashion.
- (5) To participate in all matters relating to coal exploration and mining activities of government and non government bodies, departments and authorities, other organisations, companies, and courts as deemed necessary. This will be in respect of all matters, decisions, policies and strategies that may arise and are relevant.

- (6) To support and assist members and landholders in dealing with any party in relation to any exploration and mining activities, including (but not limited to) making submissions regarding proposed undertakings, and in negotiating land access agreements, land acquisition agreements and any compensation agreements for losses of any type, in order to help ensure fair and equitable outcomes, monetary or otherwise.
- (7) To work with other individuals, bodies and organisations deemed appropriate to help achieve these aims
- (8) To undertake all activities deemed appropriate to facilitate and support all of the above, including but not limited to fundraising activities and communications campaigns.
- (9) To communicate in a timely fashion to members, and as deemed appropriate to other interested parties and the public on all of the above
